# How OASIS works

- Technical decisions made by members not staff
- Democratic
- Open and transparent
- Lightweight, ensures integrity of work while allowing for rapid progress
- Proven, safe IPR Policy
- Standards freely available in perpetuity
- Public reviews mandated; mechanism for public comments always available

- Continue to set your own technical agenda
- Elect your own officers, approve your own specs
- Work under proven [OASIS TC Process](#) and IPR Policy
- Receive services/infrastructure (member support, TC Administration, collaboration platform, marketing, TC and IPR policies)
- Ensure STIX, TAXII, and CybOX remain freely and permanently available
- Leverage OASIS reputation, relationships, resources
- Deliver more benefits to STIX, TAXII, CybOX supporters
- Expand participation

# Arsenal for STIX, TAXII, CybOX adoption

- Press releases
- Social media engagement
- Editor and analyst briefings
- Email campaigns
- Newsletters
- Coordination of conference presentations
- Hosting or co-sponsoring seminars, workshops, training, conferences
- Interop demos at major events
- Topical “WateringHole” hangouts
- Support materials
- Collaboration with liaison organizations and trade associations

# How OASIS measures success

- ✓ Process is administered in a fair, accountable manner
- ✓ Programs respond to changing expectations and support rapid iteration and agile prototyping
- ✓ Members are engaged, empowered, and excited about their work
- ✓ Standing in the international community is high
- ✓ Approved work is relevant, respected, and widely adopted
